

B3W Features

- 3 frame sizes with loads up to 8032 lbf (35.7 kN)
- Internal recirculating ball bearing system for high load carrying and bending moment capacities
- Stroke lengths up 207 in (5,258 mm)
- Wide urethane-steel belt delivers greater thrust with no stretch
- Dual carrier option to increase bending moment capacity
- Your Motor Here® compatible
- US customary (standard) and metric (optional) construction
