

## IMA Food Grade Features

- 4 frame sizes with food grade, white epoxy coating for food and beverage processing equipment
- IP67 ingress protection (static)
- Stainless steel thrust rod and fasteners
- Forces up to 30.5 kN (6,875 lbf)
- Roller and ball screw options
- Connector and feedback options to match most servo drives
- Skewed winding provides superior force repeatability
- Low electrical time constant motors allows high frequency moves with increased dynamic performance
- Easy-to-use re-lubrication port maximizes service life
