

MECHANICAL BRAKES

**MACHINED OR
STAMPED LEVER/CAM**

**REPLACEABLE HIGH-GRADE
FRICTION MATERIAL**

**DURABLE
CONSTRUCTION**

PLATED BOLTS

Tolomatic manufactures a broad range of mechanical brakes in these series: ME10, ME20, ME220 and MB3. Designed for use in areas that do not have access to other types of power, these single acting calipers feature replaceable, high-grade friction material, aluminum or cast iron construction (depending on model) and zinc plated bolts. (See pages 56 to 65)
